INDEPENDENT AUDITORS' REVIEW REPORT TRANSLATED FROM CHINESE

PWCR22000113

To the Board of Directors and Shareholders of Transcend Information, Inc.

Introduction

We have reviewed the accompanying consolidated balance sheets of Transcend Information Inc. and subsidiaries (the "Group") as at June 30, 2022 and 2021, and the related consolidated statements of comprehensive income for the three months and six months then ended, as well as the consolidated statements of changes in equity and of cash flows for the six months then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of review

Except as explained in the following paragraph, we conducted our reviews in accordance with the Statement of Auditing Standards No. 65, "Review of Financial Information Performed by the Independent Auditor of the Entity" in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for qualified conclusion

As explained in Note 4(3), the financial statements of certain insignificant consolidated subsidiaries were not reviewed by independent auditors. Total assets of these subsidiaries amounted to NT\$572,423 thousand and NT\$1,825,672 thousand, constituting 2% and 8% of the consolidated total assets as at June 30, 2022 and 2021, respectively, total liabilities amounted to NT\$44,023 thousand and NT\$86,242 thousand, constituting 1% and 2% of the consolidated total liabilities as at June 30, 2022 and 2021, respectively, and the total comprehensive (loss) income amounted to (NT\$40,485) thousand, (NT\$24,623) thousand, NT\$61,417 thousand and (NT\$35,659) thousand, constituting (4%), (3%), 3%

and (3%) of the consolidated total comprehensive income for the three months and six months then ended, respectively.

Qualified conclusion

Except for the adjustments to the consolidated financial statements, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries been reviewed by independent auditors as described in the *Basis for qualified conclusion* section above, based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at June 30, 2022 and 2021, and of its consolidated financial performance for the three months and six months then ended and its consolidated cash flows for the six months then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed by the Financial Supervisory Commission.

(a) Market risk

Foreign exchange risk

- i. The Group operates internationally and is exposed to exchange rate risk arising from the transactions of the Company and its subsidiaries used in various functional currency, primarily with respect to the USD. Exchange rate risk arises from future commercial transactions and recognized assets and liabilities.
- ii. The Group's businesses involve some non-functional currency operations (the Company's functional currency: NTD; the subsidiaries' functional currencies: JPY, KRW, USD, EUR, GBP and RMB, etc.). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

The information on total exchange (loss) gain, including realized and unrealized, arising from significant foreign exchange variation on the monetary items held by the Group for the three months and six months ended June 30, 2022 and 2021 is provided in Note 6(22).

Sensitivity analysis relating to foreign exchange rate risks is primarily for financial reporting period-end date of foreign currency monetary item. If the New Taiwan dollar exchange rate to the U.S. dollar increases or decreases by 1%, the Group's net income will decrease or increase by \$32,050 and \$461 for the six months ended June 30, 2022 and 2021, respectively.

Cash flow and fair value interest rate risk

- i. The Group's principal interest-bearing assets are cash and cash equivalents and financial assets at amortised cost. Cash and cash equivalents are due within twelve months. Financial assets at amortised cost are maintained at fixed rates. Therefore, it is assessed that there is no significant cash flow interest rate risk.
- ii. The Group has not used any financial instruments to hedge its interest rate risk.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.

- ii. The Group manages its credit risk taking into consideration the entire group's concern. According to the Group's credit policy, each local entity in the Group is responsible for managing and analyzing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. To control internal risk, the Group assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
- iii. The Group determines that the default occurs when the contract payments are past due over 180 days.
- iv. If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- v. For details of credit risk in relation to accounts receivable and notes receivable, refer to Note 6(4).

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks and beneficiary certificates is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in non-hedging derivatives is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investment without active market, financial products and investment property is included in Level 3.

B. Fair value information of investment property at cost is provided in Note 6(12).

C. Financial instruments not measured at fair value

Except for those listed in the table below, the carrying amounts of cash and cash equivalents, financial assets at amortised cost, notes receivable, accounts receivable, other receivables, notes payable, accounts payable and other payables are approximate to their fair values.

D. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:

| June 30, 2022 | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> | <u>Total</u> |

| Beneficiary certificates | \$ 4,529,078 | \$ - | \$ - | \$ 4,529,078 |
| Financial products | - | - | 13,078 | 13,078 |
| Financial assets at fair value through other comprehensive income | | | | |
| Equity securities | <u>271,580</u> | <u>-</u> | <u>1,125</u> | <u>272,705</u> |
| | <u>\$ 4,800,658</u> | <u>\$ -</u> | <u>\$ 14,203</u> | <u>\$ 4,814,861</u> |

- E. The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the closing price. These instruments are included in Level 1. Instruments included in Level 1 comprise primarily listed stocks classified as financial assets at fair value through other comprehensive income and beneficiary certificates classified as financial assets at fair value through profit or loss.
- F. For the six months ended June 30, 2022 and 2021, there was no transfer between Level 1 and Level 2.
- G. If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.
- H. The financial products purchased for the six months ended June 30, 2022 and 2021 were categorised as Level 3.
- I. Finance segment is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions and frequently review the fair value.
- J. The qualitative information of significant unobservable inputs to valuation model used in Level 3 fair value measurement is as follows: financial products are income investments, and the judgements of their valuation technique and significant unobservable inputs are based on the cash flow of individual contract.
